*Undertaking and Embalming*

WHITTIER, the foothill city, is situated 14 miles east of Los Angeles, by carriage road, 21 miles by rail, on the Southern Pacific railroad; 17 miles by Pacific Electric Railroad. The city is beautifully located on the south slope of the foothills, securing good drainage, an excellent view and pure air. The breeze from the ocean, only 28 miles away, tempering the warm weather, and the hills protecting from the colder winds, which in winter blow from the snow-capped mountains.

Whittier was settled 16 years ago as a Quaker colony. Its soil is unexcelled; it is in a frostless belt; it has an abundant supply of pure water; excellent schools; it has no saloons; its population has increased nearly 60 per cent. in two years and now numbers about 4000. It is a community of homes. It has electric lights and a gas plant, and fine church buildings of all denominations. All the prominent secret orders have lodges. Among its varied products the following are mentioned: Walnuts, lemons, oranges and oil. The Los Nietos and Ranchito Walnut Growers' Association, shipped last year \$357,000 worth of walnuts; the crop this year is estimated at \$400,000. The orange crop was easily \$100,000 last year for this vicinity; \$60,000 worth of lemons. Our oil industry places about \$25,000 per month in circulation. One well here produced 60,000 barrels in the last 19 months.

An ideal situation for a home. Property values not inflated. Strangers within our gates made welcome.
