Subject: Mr Garcia

I'm writing this email in hopes that you will listen to the residents of this beautiful city of Whittier.

The trees in uptown Whittier are as beautiful as our city and removing them would be a disappointment. Please, please listen to the voices of the people who reside here and let it be known that we want the trees to stay.

Please consider the beautification project around the trees that have been here before our time.

Kindest regards,
A life long whitier resident.
Dianna
