Hello Whittier City Council,

I am a long time Whittier resident and just read that the City Council voted to remove over 100 trees in uptown Whittier.

I don't know the rationale to remove all these trees at the same time, but the impact on the environment and charm of Whittier will be impacted by this decision.

I wonder if there are other, less drastic, phased approach that could be considered so that the objectives of the Council are met, but without the large impact of doing this at once.

Thank you,  
Leticia Oseguera
