Dear Councilman, I have been a resident of Whittier for 23 years, and love this city, specifically the Uptown Whittier neighborhood. However, I would like to express my frustration and concern about all 113 trees on Greenleaf Ave in Uptown from Hadley to Wardman streets. I am aware that these will be replaced with smaller trees, but I feel that this will really take a toll on all of the shade being removed, no temperature controls that will be assessed, and pollution/ carbon exchange that will result from this action.

PLEASE DO NOT LET THIS HAPPEN. MAKE WHITTIER GREAT AGAIN.

Thank you for your time,

Natalie Montoya
