Good Evening,

I have seen a post about the trees along Greenleaf being taken down. I grew up in Whittier and this is a STAPLE of Uptown. Thinking of Uptown, people will talk about the small businesses, bricks, trees, and Rocky Cola Café. It is not right to take something away. It is part of the businesses that are ran there. I ask that the City Council please revisit this decision. It does help the environment and the beautification of the history of Whittier. Please don't take that away from the city and the people.
