Dear Mr. Garcia,

Please,

I beg of you, do not remove these iconic Whittier trees from my beautiful hometown. There's almost no where left in this state like Whittier, please don't take away what makes it special. I grew up in Whittier and have the best memories of dance class at Claylee's dance academy and then walking around uptown with my friends. No modern beautification project will enhance Whittier. Residents love Whittier for what it is already!

Kind regards,

Ashley Button
