Dear City Council:

I want to pass on some information to you about Greenleaf and what I'm hearing from a lot of my local and out of the city customers. They are telling me that Greenleaf Uptown area looks bad. I agree with my customers that it has serviced its purpose and needs to be torn down now. It looks like the swap meet. I have personally noticed that it has become a mecca for skateboarders.

I emailed Carol Crosby at the Chamber with my concern about Greenleaf and she informed me that there has been money put aside to invest in the Uptown area, but that it will take a year or more for the changes. Is there some cleanup that can happen in the meantime? Maybe open up the street again and have some bistro tables and chairs in front of the restaurants until the big changes happen?
