Dear Mr. Mayor and City Council,
I encouraged the Council to make the Greenleaf Promenade a priority. This is vital to keeping Uptown Whittier businesses thriving after all they have been through the past 2 years. We need to enhance the look, feel and safety of these areas in order for Whittier Residents to feel safe coming back to Uptown to eat and shop. The Whittier Chamber has provided some recommendations for the Council to consider including installing temporary lighting, providing more security, cleaning the streets, providing a uniform look and I strongly recommend that this be a top priority for the excess funds from Measure W.

I want to thank each of you for your support in creating a better environment for Uptown Whittier business owners and patrons.
