today im writing in defense in keeping the promenade open as a business owner keeping the promenade open means keep more people working for me, means give the opportunity to customers that still doesn't feel comfortable with the inside dining to continue enjoy going out with family and friends, help keep afloat our business with high increase of inflation and increase minimum wage

closing the promenade or opening as hybrid only going to cause again our streets to get more dirty because of cars, motorcycles going inside the main street, risking our patio to get damage, skaters will come back to side streets,

please consider in proceeding with the great plan you had before and start the process for the beautification of whittier

Thank you

Glendy Aldana
