As long standing resident, it's past due for the City to represent the residents on Norwalk Blvd. and stop making valid issues fall through the waste line. Let's make things right and represent our community. Heavily weighted speeding trucks have damaged our streets and our property for years! The noise level is seven days a week and at all times. The evenings are the worst, being woken up at all hours in the night by pounding noise and rattling windows. The best way to describe the impact of the noise is a rumbling equivalence to a small earthquake. Being woken up and startled by the shaking of my home is unnerving. Sleeping three to four hours a night and being up by 5:30 am to work has led to anxiety. There is no break of noise vibration and shaking. It is a day in and day out.! It's straightforward to invest time and money on other city issues, but this is beyond the disparity of equal rights of homeownership/ rental rights to live a quality of life within reason and just. There needs to be a stop from allowing heavy trucks up down Norwalk Blvd., and there is a need for more patrolling in our area as speeding is an issue. You have a school too close, and there have been numerous accidents. I am aware that this street is busy, but in the 28 years I have lived in my home, this has been the worst as it seems the city is treating Norwalk Blvd. as a highway. The city has already implemented this on Beverly Blvd. and should do so on Norwalk Blvd. as there is no reason for heavily weighted trucks to take detours/permanent route through our street. I hope the city is willing to work with the residents before it becomes litigious.

Thank you,

Laura Leon
