The exit points/driveways of this new development will allow for more traffic on Janine Drive in front of the hospital's emergency room. This will create safety problems for the hospital ambulances, emergency personnel, trucks that park in the middle of the street delivering products to the hospital, vehicles attempting to avoid traffic on Colima and Whittier Blvd, etc. The city does not seem to be concerned at all of this (see below email and its a safety issue attachment

ITS A PUBLIC SAFETY ISSUE.pdf

).

On behalf of Danielle W.
Janine Drive Whittier

Good morning Mrs. Vallejo,

Thanks again for meeting us last Thursday, March 3rd, to discuss the subject project's questions and concerns. During our meeting, the question was asked about what is allowed in the middle lane on Janine Drive fronting the subject project that has an existing solid yellow lane on the outside and broken lane in the inside of each direction of vehicular travel as shown below. We were able to confirm in referencing the CAMUTCD that a two-way left turn movement is allowed within the middle lane on local streets and thus allowing vehicles to make a left turn movement onto the site.

Figure 3A-108 (CA). Two-Way Left-Turn Lanes

The other concern that came up was regarding the trucks entering and leaving the amazon site which is across the street from the subject project. As mentioned in our meeting, being that the existing issue is separate from the subject project, we will have to go through the process separately. You can reach out to our transportation team within the department and cc'd in this email to guide you on the next steps for the potential signage request.

Please let me know if you have any questions.

Thank you,

Raul Flore | Civil Engineer
