Can I please get someone from your office to contact me immediately. I have been living in Whittier all my life my mother's name is Virginia Velasquez and my fathers name is Raymond Velasquez. I had pressed charge's back in 2010 on Daniel Gomez from Pico Rivera. Regrading myself Sarah Velasquez and my minor child Paris Love Gomez I have been trying to go into your court house regrading my minor child after she was taken from Whittier off of Beverly Blvd at that time my father Raymond Velasquez and mother Virginia Velasquez reported that both relative's Chris Velasquez Sr. Raymond Velasquez brother Died from a heart attack and Art Ruiz Sr. Died death unknown that his body was found in his cabin in big bear dead in his bed. At that same time Anthoney Hernandez and 5 other individuals from Whittier brutally assaulted me and tried to murder me and in front of my minor child Paris Love Gomez was a witness to the stabbing after brutally assaulting me in my car. All this took place after I was raped and again from the same man Benny aka shadow from a gang he says is sunrise that is friends with my mother's brothers daughter that lived around the corner from the same house that I was raped in and threated with a loaded gun but him and another male driving a white Honda this was 6 months after Daniel Gomez was sentence to prison on 5 charges which after given statement from Individuals in the neighborhood that testified and after coming out of the HOSPITAL FROM BEING told I was infected with MRSA and that I had to be hospitalized for the infection in my left knee and due to the injuries sustained when trying to provent him from taking my child. I have been going back and forth with the county on reported several addresses living at and having to report on several individuals of retaliation by them after having knowledge that I was the woman in the news paper. I have been ran over by a van coming from Pico Rivera my car got slammed into by another male coming from Pico Rivera I was raped in Pico Rivera I was gang raped in Pico Rivera I was threaten with a gun in Pico Rivera I was threaten with a gun in Whittier I was ran over in Whittier I was almost stabbed to death in Whittier after brutally assaulting me. I was brutally assaulted over and over again and I've reported to law enforcement over and over on the individuals involved in this organiaed violent crimes against me I've given only names of individuals that have identified themselves to me I was given resources from the local shelter and church that provided shelter and food and showers which I reported of using drugs of HERION and Meth using needles and pipes inside the church. I reported that they continue to give me resources that placed my life in more danger after coming forward as a victim of being captived and threated with a gun being drugged and gang banged on about what neighborhood they are from and what will happen to me if I say anything. To my understanding the same individuals go on Elba St in Pico Rivera and are hanging around the same individual that brutally assulted me that raped me that threated me that threated to take my daughter to Mexico that abused my child her toddler years and I placed a protection order against him to stay away from her and I but the county wanted to have child social services open a case on me when I was working for their office I went to their office and they paid me to overview all confidential records and while picking up my minor child from preschool and straight home. I did what I was told by these individuals because the fear and the threat was already made. The crimes never stopped and now I've moved into another house in Hesperia after moving out of Victorville I've lost my job which I
