Hello, my name is Nicolette Ybarra and I live at the Groves. My family enjoys this community and our neighbors. We'd like to raise some areas of improvement we'd like the city to take action on.

One of the many lies that our builder told us was that the groves would be permit parking and the most cars we could have per a house hold were 3. Since there is no permit parking yet, I would like to **support** the city putting permit parking in the groves community. We are told by the HOA that we were suppose to park in our garages. My neighbor for example has turned his garage into a den. I feel like it would be safer for pedestrians if less cars are on the streets that way drivers can spot children paying or trying to cross the street. I do not park on the streets but I think once all the shops are open that it will be even harder to park. People will then start to park in the community which seems to already be having trouble with parking. I would hope that paying for permit parking might encourage some people to park in their garages. I personally like the neighborhoods where cars aren't allowed to park on the streets but I understand that's not possible where we live because of how compact it is. Charging for permit parking could go to the city and hopefully help with maybe hiring more police officers to keep Whittier safe.

Here are just a few reasons why I support permit parking for the groves.

Thank you,  
Nicolette Ybarra
