This church is located on a small portion of a part residential street. They have stated that they are a mega church of over 6,000 members. Is that parcel zoned for a mega church considering the proximity to residents and the noise levels that are above the California state decibel levels permitted. Again, you are all ignoring the residents. The alleys are constantly blocked, there's always double parking and the city refuses to do anything to help its residents. Now, positions in Whittier Council are voted on so please keep that in mind. I don't mind campaigning to remove officials that don't work for its residents.
