Dear Ms. Garcia,

I heard about the plan to remove these beautiful trees. Please don't. Our green areas and trees is what set us apart from other cities. They help with cleaning our air as well as beautifying our city. I am pleading with you to not allow the removal of trees to occur. We already lost two oak trees in two different schools. The kids can't play around them, the parents can't cover from the hot sun. Please don't continue with this trend. It affects the constituent's morale, it affects your fellow people's morale. Please stop this and plant more trees. We need them! Our kids need them! Our future needs them!

Respectfully yours,
Mrs. Alex Guevara
