Behind those old trees are older warehouses, scratched windows, and an anecdote to retail of yesteryear.
Why not bulldoze it all?

If the trees won't move, move the sidewalks. Make the area a promenade. Bollards up all the time. Make the existing sidewalks gardens with nice plantings.

Spend some of the \$ making places for handicapped parking. Fire, MICU and Police units would have bollard activation in their vehicles.

Spend more \$ on the building facades, maintenance, and cleanliness including power washing the promenade. Run the angled lights from building facades.

We'll have a real promenade!

Austin
