I am so disheartened to hear that the trees of Whittier, one of the reasons I chose to make this my home 23 years ago, are set to be destroyed. Please, the quality of life and the overall heating up of Whittier will be awful.

If there is a reason(s) that this is imperative, please share that information on social media. Without that, all this is doing is upsetting residents and creating conflict.

Again, please save our trees.

Danielle Tucker
Friends Ave, Uptown
