Dear Whittier City Council,

I am a lifelong resident of Whittier and I wanted to bring up my concerns about the project to remove the trees in uptown Whittier. A significant part of our uptown Whittier community. The project did not allow for enough discussion from the community. The trees in Whittier play a detrimental role to the environment as well. All the trees will be removed at once and will affect the landscape of the area. This needs to be reopened for discussion to allow the community to be more involved with the project. This is not a decision to make so hastily.

Thanks,

Glo
