Brian, city supervisor needs to focus more on the safety of residents. Two weeks ago Wednesday there was a meeting with Pacheco and residents complaining about safety issues involving Hadley tow. None of those issues have been addressed. None! But he is very involved in other issues that don't even concern him. Like confirming exactly where I got assaulted to protect the home owners which are his friends.

Residents please join forces with our family! Whittier parents on instagram. As a community we deserve a safe Whittier. With city council members who care about us. Not just their pockets.

Side note. I didn't go in person because I'm in a wheelchair!
