Requesting party is responsible for payment of water bills. By signing this document, I certify all information is true and correct, and acknowledge and agree to all terms on Page 2 of this Form. I assume all responsibility for any bills, costs, loss, damage, penalties, charges, or fees associated with water service regardless of user or use. I understand all bills are due and payable within 15 days of billing, and a monthly interest charge will be assessed against all delinquent bills. At time of meter installation, monthly water fees will commence. I acknowledge and agree to comply with all City of Whittier Regulations, Ordinances, Policies, and Rules, or amendments thereto.

Application Expiration Date:

TEMPORARY CONSTRUCTION METER APPLICATION

**Indicates required information to process your request*

TERMS AND CONDITIONS

The party requesting a temporary construction meter (Applicant) is responsible for safekeeping of the temporary construction meter. The meter must be accessible for meter reading each month and must not be relocated by the Customer. To request the relocation of the meter, Customer shall contact Public Works Customer Services at (562) 567-9530.

Applicant requesting a temporary construction meter is responsible for payment of water bills. Applicant acknowledges that the City of Whittier (City) will provide a single Service Connection to Applicant's requested location identified in this application (Property). In the event the City discontinues water service to the location for any reason set forth in the City's Regulations, including, but not limited to, failure to make payment when due, the City may, in accordance with the Regulations, discontinue water service to the Property.

The Applicant agrees to defend, indemnify, and hold harmless the City, its officers, agents, employees, and volunteers from all loss, cost, and expense arising out of any liability or claim of liability for personal injury, bodily injury to persons, contractual liability and damage to property sustained or claimed to have been sustained arising out of activities of the Applicant or those of any of its officers, agents, or employees, whether such act is authorized by this Agreement or not; and the Applicant shall pay for any and all damage to the property of the City, or loss of theft of such property, done or caused by such persons. The City assumes no responsibility whatsoever for any property placed on the premises. The Applicant further agrees to waive all rights of subrogation against the City. The provisions of this Article do not apply to any damage or loss caused solely by the negligence of the City or any of its agents or employees.

I understand that this application is for temporary water (through a construction meter) for the sole purpose of construction work at the address/location stated on Page 1 of the application. I further understand that the City has the right to remove the construction meter without prior notice if the meter is being used in an improper manner as determined by the City, and will discontinue any water service to the properties until permanent water service is established. Time for use of construction meter will expire upon the following (whichever occurs first): 1) Expiration of the Application, 2) Completion of the permitted work, or 3) Permanent water service is established.

I also understand that I am responsible for this meter and its usage until I give proper notification to the City that the meter is to be removed and the City has the meter back in its possession.

I also understand that I will operate the meter in a responsible manner so as not to cause damage to the meter and/or the water system and agree to be held accountable for any and all damage caused from improper operation of the meter (i.e. damage from water pressure spikes caused by rotating the valve faster than one-quarter revolution every second(s), failure to close valve properly, etc.). A missing or stolen water meter will be assessed at the current replacement rate.

I understand that each temporary meter must be equipped with an approved Reduced Pressure Principal Backflow Device for the duration of use. I also understand that I will be responsible for proper testing, installing, and operating these assemblies.

By signing this document, I acknowledge and agree to adhere to and abide by all of the City's Regulations.
