## **POOL DEMOLITION REQUIREMENTS**

1. Provide plot plan.
2. Fill out applications for building, plumbing, and electrical permits.
3. Get clearance from Public Works.
4. Provide four 24" x 24" square holes at the deepest end of pool equally spaced
5. Remove pool deck, coping, and shell to 18" minimum below grade.
6. Call for first inspection.
7. Fill up pool cavity with clean organic-free back-fill, at 90% compaction. (Provide compaction report to building inspector during final building inspection. A final pool demolition approval will not be issued without a verified compaction report).
8. Cap abandoned water, gas, and electrical lines.
9. Call for final inspection.
